1. Comments minutes exec meeting
2. SNOMED
3. Maintenance of ICPC-2 in future?
4. Translation of ICPC-3
5. Logo's for WICC
6. Copenhagen 2021

Minutes: PL

1. Comments minutes exec meeting

Minutes from meetings 30-10-2020 and 27-11-2020 available on www.wicc.news – internal pages.

2. SNOMED

DS: No news from SNOMED international. Sent a mail, discussed with Kees whether SNOMED-CT should be included in ICPC-3 as a linkage, like at the moment, or as a mapping between ICPC-3 and SNOMED-CT terminology. This is asked for in Belgium by the government, to be built in the Belgian thesaurus under edition. Could be an issue in other countries as well.

Mikko Härkönen, Finland and Taran Borge, Norway are willing to be a part of a WICC SNOMED group.

3. Maintenance of ICPC-2 in future

DS: Maintenance of ICPC-2 and the mapping to ICD-10 has until now been done by Kees and Julie Gordon (JG). The introduction of ICPC-3 will not necessarily mean that ICPC-2 will not be used in some countries, so there will be a need to maintain ICPC-2 in the future as well. Kees will resign from the WICC, but is likely to remain active in relation to the ICPC-3. Will ask JG for her considerations on ICPC-2 maintenance.

Discuss within WICC for rebuilding an update group. Will be on the agenda for upcoming WICC meeting, but action should be taken before the meeting in September. The former update group included Kees, Julie and Mårten Kvist as leader of process codes. Since 2019 led by Laurent Letrillart.

4. Translation of ICPC-3

DS: The members of the ICPC-3 consortium are licensed to use the ICPC-3 and translate it. The scope of ICPC-3 elements that need to be translated can vary in the individual countries - from translation of everything, to translation of only the individual rubrics. Some countries have already decided on translation, including which elements of the ICPC-3 they will translate. Kees is working on translation procedures and tools available for this. DS: Must be clarified with the consortium/Kees – Should be up to the organization having the license.

5. Logo's for WICC

Proposals sent from Oli, Ukraine – 30-50 different logos sent. Will be sent to Executive members – a selection between Executive members will be presented for election from a shortlist by the WICC members.

6. WICC meeting Copenhagen, 2021

Information on the meeting has been sent included list of hotels with special offers for accommodation.

[Link to registration here.](#)

In relation to the launch of ICPC-3, representatives from SNOMED and ICD-11 to participate.

Open meeting – presentations are welcome, online or at location
