

Minutes WICC-Executive meeting 25. March 2020

Participants: Kees, Jean-Karl, Laurent, Thomas

Minute taken by Thomas

- Discussion about the future of the Corona pandemic. Conclusion according to the Bavarian comedian Karl Valentin (also attributed to many others): „prognoses are a difficult thing, especially if they are about the future! Therefore we postponed the decision about whether the WICC meeting will take place as planned or will have to be postponed. Thomas offered that in case of postponement the meeting might also take place in Erlangen where it would be much easier to organize it anyway. We are aware that many of you already have booked flights and hope you will be able to get your money back in case we have to cancel the meeting.
- Discussion about the length of the WICC-Open day if the meeting takes place. Decision: as we shorten the length of the meeting also the WICC-Open day will be reduced to 2-3 hours on Monday afternoon after which we will have a short trip through Berlin and then have dinner together (if...)
- Discussion about collaboration between TFA and Kees' working group. Kees will react to the latest contributions of TFA by the end of the week.
- Jean-karl proposed that the WICC meeting should focus on the content of future work of WICC as for example the topics „processes, functioning, personal factors and clinical signs.
- Next WICC Exec meeting will be at 17. April 2020
